In this unit, students will dissect, discover, sort, and plant seeds. While recording growth over time, students will identify the structures of plants, including seeds, roots, stems, leaves, flowers and fruit. Finally, they will learn how much we depend upon plants by categorizing common plant products found in our classroom and in their home.

This study guide was created as a guide to my "Plants Unit Assessment". Both the test and study guide are closely aligned to Louisiana State Standards 36, 37, and 38. Even if you do not teach in Louisiana, your state standards are probably very similar, as most are. Keep in mind that these study cards were created as a part of a PLANTS UNIT.
